THREE LIVES LOST IN NEW HURRICANE WHICH HITS VERA CRUZ

MORGAN CROP NOW GOING TO MARKET IN RUSHING STYLE

Gin Yards Taxed To Capacity As The Farmers Hurry

LOCAL GINNERS GIVE FIGURES

Roads Are Used At All Hours By The Farm Wagons

Morgan's cotton crop is rapidly moving to market, ginneries locally are racing to catch up with figures of 1925.

Though there is little chance to gain the total yield of 1925, when Morgan reached 37,000 bales, ginneries are striving toward their 1925 record.

Gin yards are taxed to capacity with the hundreds of farm wagons, farmers talk to each other while awaiting their turn at the gin, talking of the rising and falling cotton price, plans for next year and probable moves to other farms where some will lease on the tenant system.

Up until yesterday The Home Oil Mill ginnery and D. S. Echols gin were running close together in the amount of cotton ginned this year, the former reaching 1040 bales and Mr. Echols stating that he was somewhere close to 1100 bales. C. D. Patterson Ginning Company is next with a mark rapidly nearing 1,000 bales, they had reached 800 up until Tuesday. The Southern Cotton Oil Company, a fourth Albany-Decatur ginnery had reached 425 bales, the greater portion of efforts of that company going into lines other than ginning.

Roads leading to the Twin Cities late at night and early in the morning bear a steady stream of farm wagons loaded high above ordinary capacity with the unginned quantities of cotton.

Just what will be the Morgan county total this year is not yet indicated, the crop being unusually late and pickers scarce. Farmers are not downcast over the failure of the market to rise, many of them selling a portion of their yield and holding on to the greater quantities, expecting to see the market take an unusual trend upward.

Other gins over the county are equally as busy as Albany-Decatur companies, though not handling the volume handled here. Every available point is being utilized by farmers as the product is rushed to the ginning centers.

Motions Heard In Daugherty Trial

NEW YORK, Sept. 29.—(AP)—The morning session of the Daugherty-Miller conspiracy trial was called off in federal court in order that Judge Mack and the attorneys might continue their discussions of dismissal motions made by the defense.

The government rested its case yesterday afternoon and court was adjourned, after which the judge and lawyers considered the various motions.

When court opened at the usual hour today, the clerk announced there would be no session until two o'clock this afternoon.

The jury in the Daugherty-Miller conspiracy trial was dismissed today until 10:30 o'clock tomorrow morning to allow defense attorneys to continue to present their arguments on dismissal motions.

Shoals Magazine Is On Newsstands

"The Muscle Shoals Magazine," published by the Gazette Publishing Company, has made its appearance on the newsstands. The leading article of the first issue is a discussion of the Shoals question by Congressman Edward B. Almon.

'Teapot' Fight Will Be Taken Up On Appeal

WASHINGTON, Sept. 29.—(AP)—Attorneys for Harry F. Sinclair, oil magnate, said here today that they would appeal to the supreme court the decision of the United States circuit court of appeals at St. Louis, holding the Teapot Dome naval oil reserve lease was obtained in a fraudulent manner. The move, they said, would be for a writ of certiorari. Until a complete copy of the court's decision was received and studied, the attorneys said they would have nothing more to say.

DEMAND USE OF COTTON FOR BAGS

Sykes Suggestion Is Offered Farmers And Bureau

Lawson Sykes, well known local cotton broker, has offered a suggestion to cotton growers and their associations which, if accepted, probably would result in the material increase in the use of the staple.

Mr. Sykes suggests that farmers and the farm bureaus decline to purchase fertilizer which is not put up in bags made from cotton. It will be recalled that recently at a conference in Birmingham, plans were discussed for increasing the use of cotton and inclusion of fertilizer bags was suggested at that time.

Carrying this idea further, Mr. Sykes suggested today that the cotton organizations decline to buy any fertilizer for members, unless the product was enclosed in cotton bagging.

School Closed As 'Kids' Pick Cotton

Another indication of the acute need for cotton pickers at this present time is given by the closing of the school at Nixon chapel, permit the students to aid in gathering the crop.

Farmers are hurrying to get the cotton out of the fields before the grade is lowered by wet weather, as was the case in so many instances last year.

Local Folks Are Going To Battle

Talk is plentiful on the streets today regarding the chances of Alabama and Vanderbilt in the coming title battle on Saturday afternoon at the Vanderbilt stadium in Nashville. It is evidenced that Albany-Decatur will be represented with the number of local people already having signified their intention for making the trip. Some are going up the night before, others will take the Saturday morning special and others will take advantage of good road conditions and make the trip in cars.

Dies Suddenly In Nashville Today

W. M. Gamble, father of Mr. A. S. Brazleton of Decatur, died suddenly this morning in Nashville, according to a telegram received by relatives. Mr. Gamble, a prominent and beloved resident of Lebanon, Tenn., had been ill since last July, when he suffered a paralytic stroke. He had been taken to Nashville in an effort to regain his health.

Funeral arrangements had not been completed early today, but a funeral probably will occur at Lebanon.

PARTY CHIEFTAINS CONTINUE DEBATE OVER PROSPERITY

Bayard And Phipps In Lively Wrangle On Campaign Issues

AGRICULTURE FLAT ON BACK

Democrat Insists The Voters Are Tired Of Republican Rule

WASHINGTON, Sept. 29.—(AP)—The argument over the state of the Union and particularly as to whether prosperity now exists in the United States continues unabated between official spokesmen of the democratic and republican parties.

With their eyes set upon the November elections, which are to decide the complexion of the 70th congress, Senator Phipps, Colorado, chairman of the republican senatorial committee, declared: "This is a republican year," while Senator Bayard, Delaware, treasurer of the democratic senatorial campaign committee, characterized his Colorado colleague as an "unconscious humorist."

The people, Senator Phipps asserted after a white house conference with President Coolidge, have undiminished confidence in President Coolidge and believe he should be supported by a majority in congress, which will help him maintain the most abundant prosperity the country has ever had under a republican tariff, but Senator Bayard said this statement would be received by western farmers with "their tongues in their cheeks."

In the latest wave in the sea of campaign propaganda, Senator Bayard asked whether Senator Phipps "is the only person in America unaware of the fact that the 16,000 employees of the Amoskeag Manufacturing company of New England, declined only last week to accept a cut in wages, which the company dangled before their eyes for the alleged purpose of getting contracts."

Senator Phipps countered with the statement that "the situation looks good in Massachusetts, where Senator William Butler, chairman of the republican national committee and personal friend of the President, is opposed by Former Senator David I. Walsh. "It is difficult," he continued, "to imagine how it could be otherwise, inasmuch as Massachusetts is an industrial state, strong for both the tariff and the President. From New England generally, from the

PERHAPS Mr. Dempsey will be up next time, Mr. Tunney down in which case think of the intense excitement and joy of a THIRD fight to come soon thereafter.

MR. TEX RICKARD looks upon Americans as a very intelligent aggregation. Others say, slightly altering the old

No Good Reason For Present Low Price of Cotton Is The Assertion Of Professor Duncan of Auburn

AUBURN, Ala., Sept. 29.—(AP)—The present price of cotton is too low and there is nothing in the statistical position of the commodity to justify the mark to which it had dropped, Professor L. N. Duncan, director of the Alabama Extension Service, says in a statement on the cotton situation.

A survey of production, consumption and price records reveals, Professor Duncan said, that for the past five years on August 1 there has been a close relation between prospective supply and prices offered with prices falling as indicated supply increased, and vice versa. This year the supply is 18 per cent above average, while the price is 25 per cent below.

In the past four years on September 15, however, the offered price followed the trend of prospective supply. This situation presented a curious contrast, for which, Professor Duncan said, there was no apparent explanation.

ALBANY-DECATUR COUNTY COURT TO BEGIN THE 11TH

Chairman Gives A Report Of Miami Conditions

Albany-Decatur is still contributing to the Red Cross Fund which is being spent in Florida to care for the injured and homeless in Florida and Alabama cities, it was stated today by John D. Wyker, local drive chairman. All contributions locally should be made to Mr. Wyker at the Bank street establishment.

Reporting conditions today in Miami and other Florida points, John Barton Payne, chairman nationally, said "Red Cross relief in Miami, Ft. Lauderdale and other points in the east Florida coast disaster have become organized. Henry M. Baker, national director of disaster relief, has arrived in the district and taken charge of Red Cross work, assisted by corps of nurses and other trained disaster workers. Our medical advisor after a rapid survey of the disaster area informs us that at least 4,000 are injured, many of them very seriously. In Miami alone 1,200 persons are in the regular hospitals and 150 emergency hospitals. In many cases the injured will require expert care and extended hospitalization if the patients are not to come forth crippled for life."

The Staten Repair Shop, Fourth Avenue South, will move its quarters to the corner building at the corner of 4th avenue south and east Sixth, about October 1. The corner building is being renovated and will include a drive-in station.

H. O. Goidel Goes To Series

The efforts of the St. Louis Cardinals to win a world's championship from the New York Yankees will be witnessed by at least one local fan. H. O. Goidel, popular attache of the Thompson Drug Company, plans to leave Monday for St. Louis to witness one or two of the games played in the Missouri city.

TODAY Put Not Your Faith. Must We Interfere? His Own Medicine. About Cancer.

quotation, "Put not your faith in punches, or any child of man."

THE moving picture world, a big one, with tens of millions that look upon it as the only world of importance, wonders what Estelle Taylor will do now that the champion she married is champion no longer.

Everybody knows what Napoleon's second wife did when he ceased to be champion. She forgot all about him. But no moving picture actress could do that and besides he may be champion again—Napoleon came back from Elba.

COMMISSION NOT ABLE TO ACT UPON ECHOLS HILL ROAD

Highway Chief States Board Cannot Move For Morgan

BINGHAM MAKES AN ESTIMATE

Lawrence Road Still In Mind Of The Commission

The state highway commission cannot act upon the paving of Echols Hill, nor the repairing and widening of the Decatur-Courtland road, at this time.

Advices received today from John A. Rogers, chairman of the highway commission, indicate that action may be expected later on the Decatur-Courtland road, but nothing may be expected with regard to the Echols Hill road.

In session Tuesday and today in Montgomery, Chairman Rogers made the following reply to the request of Twin City good roads advocates who were seeking action upon the two projects:

"In view of the fact that the highway department has spent on Morgan county roads \$556,631 and is expending for Morgan county's part of the cost of the bridge over the river \$201,831, the commission cannot expend any more money in Morgan county. The commission is aware of the much needed pavement on Echols Hill and regrets its inability to pave. No action is taken on the Lawrence county road now. The commission hopes to do this stretch of road later.

JOHN A. ROGERS." Although the state highway commission by resolution accepted the paving of Echols Hill it is seen through the position of Chairman Rogers that there is no chance for a roadway through the medium of the commission.

Estimates Cost Marion S. Bingham, city engineer in speaking of the needed work upon Echols Hill, made an estimate of the cost for curbing, guttering and paving, placing the figure at near \$6,000. Mr. Bingham made the estimate at the request of a Daily representative, this newspaper having been greatly interested in the bettering of all road conditions in this county and particularly in the improvement of those roads leading into Albany and Decatur from the surrounding rural sections.

Representatives who were ready to go before the highway commission with regard to the two mentioned projects, halted as they received word from Chairman Rogers.

Moves have already been placed on foot for the repair of the Lawrence county sector of roadway leading from Decatur to the Tri-Cities, but as yet no official action has been taken looking toward the final disposition of Echols Hill from a local standpoint.

Mrs. E. W. Godbey Is Brought Home

Mrs. E. W. Godbey, whose condition has been the cause of deep anxiety among her many friends here, has returned from Rochester, Minn., where she went for treatment at the Mayo clinic. Her condition today was described as being as good as could be expected.

Youngster Sets Picking Record

Claude Bennett, aged seven years, probably established a record for cotton picking for one of his years yesterday when he is reported to have gathered 100 pounds of the staple. The child resides west of here on the Danville pike.

Prosecutor Is Given Freedom On Old Charge

ST. LOUIS, Sept. 29.—(AP)—Circuit Attorney Howard Sidener today was freed at his trial on a charge of compounding a felony in letting William Allen Scott Rutherford, former army reserve lieutenant of Pine Bluff, Ark., off with a \$500 fine for slaying Jack Tucker, a hotel bell boy, here last October 10.

Circuit Judge C. T. Hays sustained a defense demurrer as to the sufficiency of the evidence and directed a verdict of not guilty.

TEACHER VICTIM OF OWN POISON

Chemistry Professor Found Dead In Chair At Home

ANNAPOLIS, Md., Sept. 29.—(AP)—Dr. Normand Fitzhugh Eberman, 27, associate professor of chemistry at Johns Hopkins University, died from self-administered poison, a coroner's jury found today.

Dr. Eberman's body was found late last night, upright in a chair in the summer cottage of his father-in-law, W. L. Summers, near here. The jury found that Dr. Eberman had been dead from 12 to 24 hours when found. He had been missing two days. The poison, it was stated, apparently was eaten either on a piece of bread or a piece of candy found in his hand.

No motive was discovered. Mrs. Virginia Eberman, the professor's wife, said he had few interests outside his classroom. She was called to the inquest but was not asked to testify.

Dr. Eberman was the son of the late Dr. H. F. Eberman, of Lancaster, Pa.

COUNTRY STORE OPENS TOMORROW

Kiwanis Start The Fund Gathering For Charity

The annual Kiwanis Country Store opens Thursday in the Hotel Echols Building, Decatur, with a larger stock than in former years and a greater interest in the undertaking. Kiwanians are devoting much of their time this year to the success of the store, realizing the merit of the project and its advantage in offering a good sized fund for charity purposes.

Foster H. Pointer, manager, has had his "clerks" busy for several days arranging the stock and bringing in the generous contributions made by merchants and individuals of these cities.

Included in the stock are a number of gifts from out-of-town business houses, many of them wholesalers who sell here to retailers. Kiwanians today predicted nothing but success for the enterprise.

Churches Likely Wait Conference

Central Methodist and First Methodist churches likely will await the November conference dates before the officials of those churches go further with their building plans. Central Methodist is planning an entire new church and First Methodist is preparing to build a Sunday school annex.

READY FOR ASPHALT

A goodly portion of the Moulton-Decatur roadway, in the middle sections of the road, now is ready for asphaltic surfacing, with the addition of another layer of rock. The road already is open to travel.

IMMENSE DAMAGE AS STORM SWEEPS GULF AREAS AGAIN

Wire Communication With Mexico City Is Interrupted

FLORIDA HELP GOES FORWARD

Red Cross Now Faces Its Greatest Task Since Big 'Quake

GALVESTON, Texas, Sept. 29.—(AP)—Three lives were lost in the hurricane which swept Vera Cruz for two hours yesterday, advices to the Mexican Telegraph company here today said. No estimate could be made of the loss of life at sea, but great damage was reported to the surrounding villages.

The sea resort of Villa Del Mar was destroyed, as well as the carbon station, which it is estimated cost half a million dollars. Shipping in Vera Cruz harbor sustained great loss and it was believed many small fishing crafts were destroyed.

Vera Cruz was flooded last night by heavy rain.

WASHINGTON, Sept. 29.—(AP)—The Florida hurricane has placed on the shoulders of the American Red Cross the greatest relief and rehabilitation task since the San Francisco earthquake and fire in 1905, John Barton Payne, Red Cross chairman, said today after analyzing reports of the needs of the situation.

Vice Chairman Feiler, at Miami, reported to headquarters that a careful check showed a total of 15,700 families, or 47,000 persons, who will need Red Cross aid.

NEW YORK, Sept. 29.—(AP)—Telegraphic communication with Mexico City was practically paralyzed today by the tropical hurricane reported from Vera Cruz. The Western Union had but two wires, one from New York and the other from Laredo, Texas, in operation.

COTTON PARLEY IS POSSIBILITY SOON

Opinion Of Leaders Is Being Sought On Suggested Plan

JACKSON, Miss., Sept. 29.—(AP)—Opinions of bankers, cotton associations and leading business men in the South on the advisability of calling a mass meeting in Memphis to consider some plan to withhold enough cotton from the market to insure a fair return for the farmers, is being sought by the Mississippi state board of development.

October 12 is suggested as the date and financial leaders are being asked to telegraph their reply to the board here. L. O. Grosby, president of the board, predicted today that cotton will go below pre-war levels, if the crop is gathered and placed on the market. He declared that 14 cent cotton is a loss to the farmer and stated 20 cents would be the least figure that could be termed a fair return.

"If the Southern farmers are to be saved from bankruptcy and dire distress the business men must take some action to infuse into the marketing of the crop some degree of business intelligence," Mr. Grosby said. "Also business men must formulate some plan to control production and bring about diversification." Mr. Grosby, who is not interested personally in the cotton business, offered \$10,000 to aid in organizing such a movement, provided a sufficient number manifest interest to insure putting the proposition over.

Daily News Letter

Group of Staff Correspondents at World Center of Population

By ALICE LANGELIER
International News Service Staff Correspondent

PARIS.—The work of the Unknown Soldier under the Arc de Triomphe still receives the greatest number of visitors of any museum, monument or other place of interest in Paris. Stand there at any hour of the day and you will observe the almost interminable stream of people who pass under the Arch. Begin to count them but you will soon be obliged to stop. The people come in pairs, small groups and large ones. There is probably no other spot in the world affording a better opportunity for studying the varied types of the human race. Every nation under the sun is represented and every tongue is spoken. So numerous have been the crowds lately, and among them many dangerous individuals, that it has been found necessary to place an attendant at the gate. He is a wounded soldier and wears many medals.

The French love their beasts and birds. Four millions of francs have just been appropriated for the use of the Paris Jardin des Plantes, which is the zoological garden. A large part of the buildings will be rebuilt, a new monkey house set up to replace the one recently destroyed by fire and an open-air theatre erected. It is hoped that a little money will be left to be used for purchasing a few animals. A great many of them had to be killed or given away during the war when food was dear and scarce.

Paris may be a bit quieter in the future if regulations planned by M. Morain, Prefect of Police can be put into effect. The nerve-racking autohorns which are used quite unnecessarily a great deal of the time, will henceforth sound a uniform deep tone and motorists will be allowed to sound it only once for a specific purpose. Shriill sirens will be strictly prohibited. Crawling by taxicabs and autocars picking up passengers for the races or tours is also to be stopped and a special squad of traffic police will enforce this order.

Austrians eat more meat and Italians less than any other people. Meat eaten in Austria amounts to 245 pounds. In Italy the average person eats twenty-three pounds. Americans consume 118 pounds. And in spite of their beef-eating reputation, the English are content with 110 pounds and Norway and Sweden with 86. Frenchmen use 73 pounds, Germans 70 and Spanish 40 pounds every month.

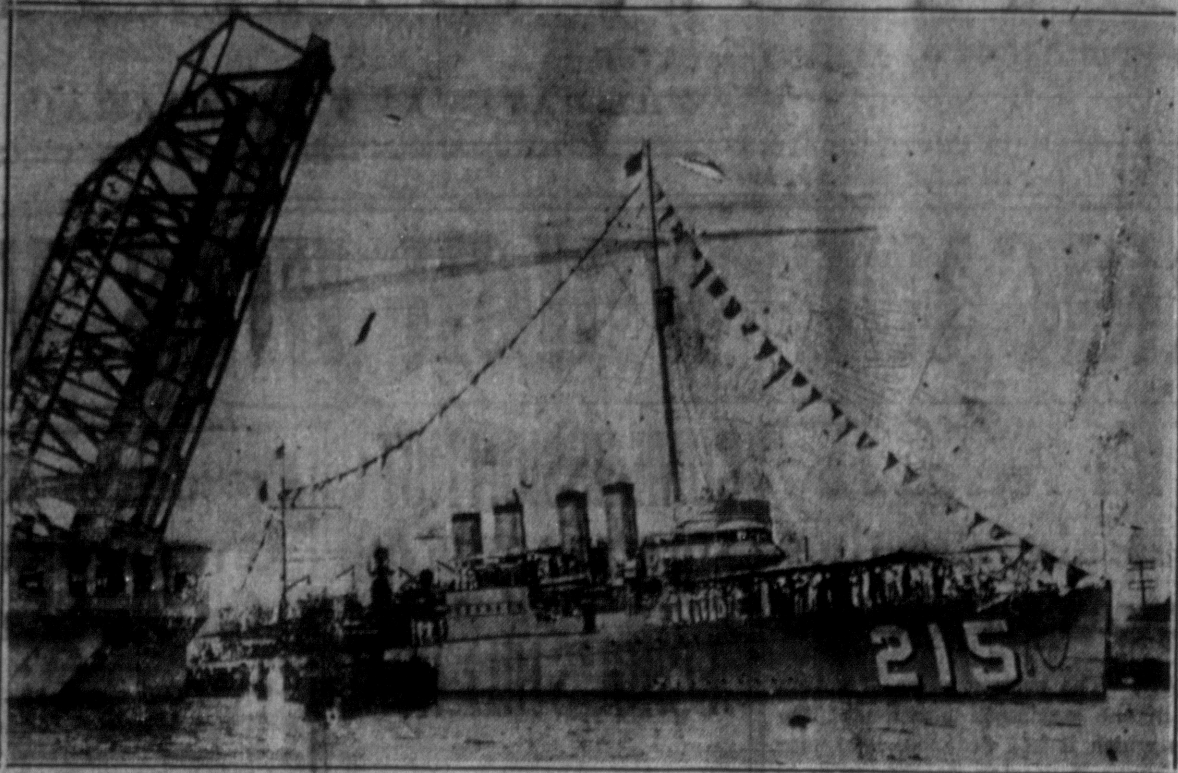

That the best things often come in the smallest packages has once more been proved by a French naval officer who has just invented a "pocket-edition" diving suit. It does away with the helmet and air-pipe. The diver carries on his back a bottle filled with compressed air which he operates unassisted and which enables him to remain under water for ten minutes at a depth of five fathoms.

The inventor, Commandant Yves le Prieur often made use of his diving-suit when stationed in the Mediterranean Sea to take submarine photographs. It was recently tried out with success at the Tourelles Swimming pool in Paris.

Carload Tractors Arrive Here Today

A carload of Fordson tractors arrived today and were being unloaded by the Morgan County Motor Company. Seven tractors are included in the car. It was stated at the local company today that part of the shipment is consigned to Lawrence county, but that the demand for the tractor is growing in Morgan farm sections.

Port of Corpus Christi Opened to World

The destroyer 215 is shown passing under the bascule bridge at Corpus Christi, Tex., signifying the opening of port to the commerce of the world.

Plain Facts About Investments

HOME AND FOREIGN SECURITIES

By W. S. COUSINS, International News Service Financial Editor.

NEW YORK.—In the first half of 1926 the American investment market absorbed about three and a half billion dollars worth of home and foreign securities. In this period bond yields were maintained at the lowest levels since 1917, which means that bond prices as a whole were at the highest levels in a decade.

This fact is cited by the Federal Reserve Board, in reviewing the investment markets and investment conditions generally as an evidence of the underlying stability of our investment situation, the abundance of investment funds and the increasing conservatism of American investors, who are giving more attention to sound values than to the promise of high returns on invested funds.

In the period under review, the security floatations included slightly over three billion dollars for home enterprises, a good portion of which was for the purpose of paying off maturing obligations, and therefore the borrowings did not add to the bonded debt of the corporations.

While the countries classed as "foreign" received about a half a billion dollars through the long term investment channels in the first half of the year, about two-fifths of the amount was loaned to Canada, which by many investment houses is not considered foreign territory from the investment standpoint.

European governments and municipal and industrial borrowers in Europe received only \$200,000,000.

Party Chieftains Continue Debate Over Prosperity

(Continued from page one)

middle states and from the far west," Senator Phipps said, "we hear of no movement away from the President and therefore from the candidates of the republican party."

Senator Bayard asserted: "Agriculture is admittedly flat on its back" and added that "the rural politically and financially for the cent of all our people."

The democratic party, Senator Phipps concluded, "has reached the state where it is a party national only in its pretensions and without a single national issue on which it can stand with any hope of success."

Senator Bayard declared: "Nearly one half our population has for five years past carried the bag politically and financially for the republican party," and asked whether Senator Phipps "thinks that such statements as he gave out today will be ratified when the ballots are cast in November?"

Some spice was added to the debate by the statement of Senator Charles McNary, republican, Oregon, and member of a special campaign expenditure investigating committee, that the committee would be ready to submit its report on the Pennsylvania and Illinois inquiry in December. The report, he intimated, would depre-

000, a comparatively small amount compared with other post-war years. This shrinkage was due in large measure to the unsettled political and economic conditions in France, Italy, Belgium and Great Britain during that period and to the further fact that France and other nations have been placed under the ban by the United States Government for their failure to ratify the tentative agreements and plans for the funding of their war debts to Uncle Sam.

There were some notable variations in the character of financing through the long-term investment market this year. For example, a large portion of the new money advanced for European account went to German municipalities. This is quite a departure and represents the first large scale financing for European cities since the flotation of the famous "French cities" issues a few years ago.

The outstanding feature in the home markets was the preponderance of public utility issues sold to the American public. There were three reasons for the ascendancy of the utilities: the "flush" treasuries of the industrial concerns and their consequent withdrawal from the borrowing lists; the expansion of the utility companies and the need for funds therefor; the growing popularity of utility bonds, based on the stability of the companies and the proportionately higher yields on their bonds.

FASHION NOTES

BY ALICE LANGELIER
International News Service Staff Correspondent

PARIS.—Glow-worm finger nails promise to replace the sparkling jewels on the hands of smart women in Paris next winter.

Even in the daylight they are as bright as diamonds shedding a variety of luminous rays. The effects are curious but exceedingly decorative. The jewels of the Queen of Sheba would not throw-off one-half this charm.

More than this, these phosphorescent nails might prove useful as well as ornamental when they serve as beacons while motoring in the dark. The street policemen might take up the fashion as well.

ciate the expenditures made on the part of Representative William S. Vare and Frank L. Smith. It also may criticize the Anti-Saloon League, Wayne B. Wheeler, counsel of the league, called on Senator McNary on the latter's return to Washington, in an effort to ascertain when the report would be ready.

Aimee's Story Is Retold To Court

LOS ANGELES, Sept. 29.—(AP)—Aimee Semple McPherson's testimony before the grand jury when she told them her story of having been kidnapped from the beach and held for ransom, was read into evidence from the transcript here today in municipal court.

The evangelist's testimony did not differ materially from the story she gave the press at the time she reappeared at Douglas, Ariz., June 23.

Reading of the transcript consumed most of the morning session of her preliminary hearing on charges of criminal conspiracy. William H. Carter, foreman of the 1926 county grand jury, which was discharged for alleged irregularities in connection with the McPherson investigation, was on the stand for a few minutes and his testimony laid the foundation for introduction of the transcript.

"It Will Sure Clean The System"

Says Well Known Planter Endorsing Famous Extract Known As HERB JUICE; Gains 15 pounds and is Feeling Fine.

"I have been bothered with constipation for as long as I can remember. I have used many different kinds of laxatives but never have found one so effective in constipation as the great Herb Juice tract, known as Herb Juice. The above statement was received a few days ago by the special representative of the Herb Juice Medicine Co., from C. F. Moore, well known planter, Montgomery, Ala., who is very much elated over his improved condition. Continuing his remarks Mr. Moore said: "Before I used your medicine I was always constipated and had to take a strong laxative to obtain relief. I could never find a remedy that would give satisfaction. Instead of getting better I grew worse all the time until I had about made up my mind to quit taking anything, but I felt so tired and worn out all the time, and had no energy to enable me to carry on my work. I ventured to try just one bottle of your herb extract known as Herb Juice as it was so highly recommended. I must candidly admit that it is the most effective and most pleasant dose I have ever taken. I have found that it will sure clean the system. It is a fact that the first few doses of this great herb laxative gave me relief and after taking only three bottles I feel like a different man altogether. Through its natural action on the bowels this wonderful laxative has relieved me of constipation and now my bowels act as regular as clock work. I now go about daily routine with plenty of vim and vigor and when night comes I am not fatigued. I have a fine appetite, have gained 15 pounds, food tastes good. I have no trouble from indigestion, or heavy feeling after eating. In fact, I am just feeling fine. I know from experience what this medicine will do and advise every one suffering from constipation to use it; for I am sure they will be satisfied with results."

FATE OF MINERS TO BE REVEALED

Rescue Parties May Reach Entombed Men Today

IRONWOOD, Mich., Sept. 29.—(AP)—Fate of 43 men entombed since last Friday in the depths of the Pabst mines of the Oliver Mining company here, may become known today.

Possibility that one of the efforts to pierce the barrier of rock and earth in the shaft to the eighth level, where the men are imprisoned, 800 feet underground, may be crowned with success today, did not, however, deter men engaged in three other rescue attempts.

Today's hope was from the bottom of the shaft, clogged midway by the cave-in. Admittance to the lower levels of the mine is gained by connections from the shaft of an adjoining mine. Working upward the rescuers had penetrated the 20th level after several days of hazardous efforts.

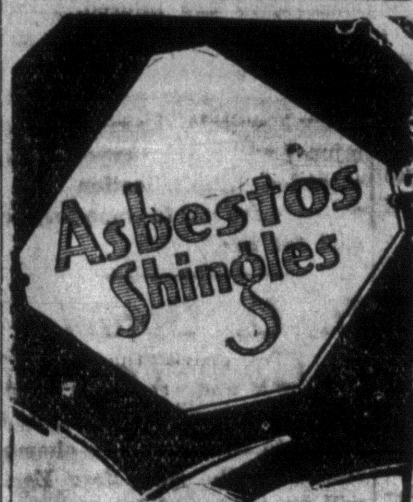

Completion of timbering will permit easy egress to the ladders of the shaft, which were intact as far as rescuers could see upward today, giving hope they might climb up to or near the eighth level. It is 1200 feet from the 20th level to the eighth level, where 40 of the men are believed to be.

The shaft is clogged from the second level 327 feet below the surface to a point somewhere below the eighth and 20th level. On the 18th level, 257 feet above the 20th level, a mine inspector is believed imprisoned. He faces the possibility of rescue first.

Drill Team Of F. A. U. To Come

The Birmingham Drill Team of the Fraternal Aid Union will drill on Second avenue Friday, October 1, between 7 and 7:30 p. m. From there they will march to the L. O. O. F. Hall, where an informal meeting will be held for the benefit of all former members and their friends. Refreshments will be served. A. L. Moye, president of the local lodge, says that in a short time the Albany F. A. U. will be on a more solid foundation than it has ever been, under the direction of a new and able district manager.

No More Granges For Zuppke, Stars Will Not Be Developed Says Coach

By COPELAND C. BURG
International News Service Staff Correspondent

CHICAGO.—There won't be another "Red" Grange at the University of Illinois for many, many years.

Bob Zuppke, the "strong, silent" man who taught the mighty Grange quite a little about the gridiron game, is going to see to it that, unless the "Red" Grange is backfield men this fall with the idea there will be no chance for the development of an outstanding star.

He is drilling his squad with team-work as the central theme and there isn't the slightest chance of a new Grange springing up on the Orange and Blue campus, according to those who have watched "Zup" at work this fall.

Lanum, Timm, Peters and Daugherty are the four backs destined to do the job the great "Red" left when he deserted amateur ranks. Zuppke has christened his backfield the "Four Mules" and is known to be doing everything possible to prevent the development of a great sensational back, who might attract Mr. "Cashandcarry" Pyle.

The Illinois mentor is sold on the possibilities of his back field, although it is green and unimproved, and has his heart set on repeating the Illinois victory of last season over Pennsylvania.

In selecting his "Four Mules" Zuppke has gone entirely over the heads of three veteran backs, Gullivan, Leonard and Green, and his action is giving the call to the three untied sophomores has created intense interest.

The three veterans, with Bud Stewart, are making up the Orange and Blue second string backfield and unless the "Mules" show something "Zup" does not look for the more seasoned men to remain in the offing the entire season.

Zuppke has consistently refused to discuss Grange's entry into professional football but it is said by his friends that the step of "Red" left the coach crestfallen.

Illini followers declare that Zuppke's branding of his backfield as the "Mules," as a take-off on Notre Dame's famed "Horsemen,"

his selection of sophomores to battle for places against veterans in the backfield and his general attitude not to permit his backfield men to think too well of themselves are certain indications "Zup" is determined he will never turn out another Grange.

Visit Albany-Decatur, you will come back with a mission.

The best place to buy, the best place to sell, the best place to stay—that's Albany-Decatur.

A call to 46 will bring a job representative to fill your needs in envelopes, letterheads, billheads, statements, ruled, jobs, doggers. Call today and have him call.

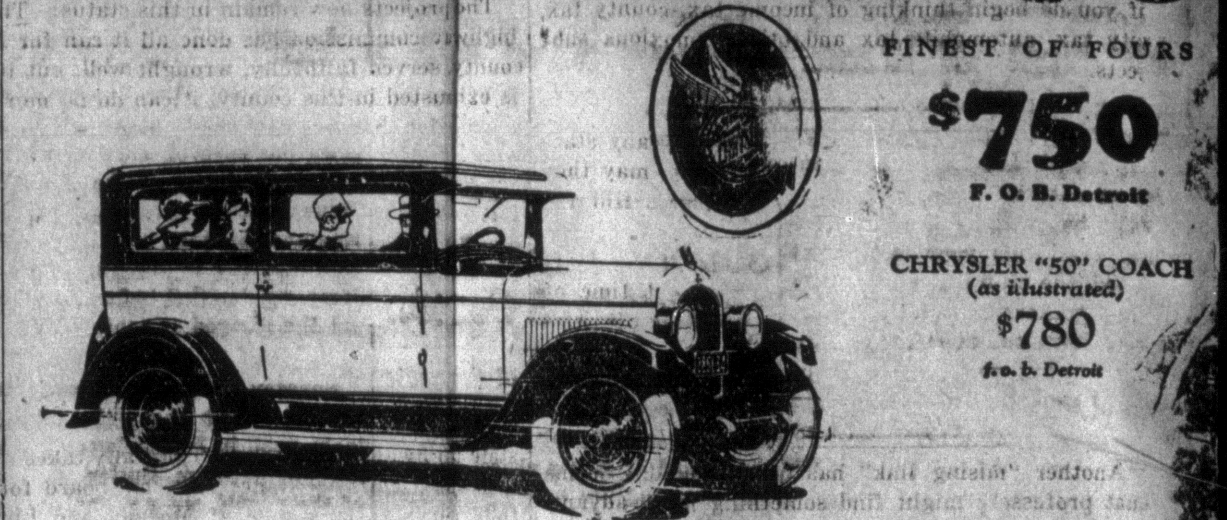

Patronize our advertisers, they are asking for your business and telling you what they have to offer. Advertisers back their advertising with good goods.

Candidate

Euro Elias, half-brother to President Calles, was considered for appointment as Minister of Finance for Mexico.

New CHRYSLER "50"

Line up Five Cars in Your Mind—How Can You Mistake the Chrysler "50"?

The Chrysler plan of Quality Standardization differs from, and is superior to, ordinary manufacturing practice and methods, because it demands fixed and inflexible quality standards which enforce the same scrupulously close limits—the same rigid rule of engineering exactness—the same absolute accuracy and precision of alignment and assembly—in the measurement, the machining and the manufacturing of every part, practice and process in four lines of Chrysler cars—"50", "60", "70" and Imperial "80"—so that each individual car shall be the Supreme Value in its own class.

With only four other cars of large production in the four-cylinder field, it is exceedingly easy to recognize the outstanding values of the Chrysler "50" and decide which car to buy.

Lining up the five cars side by side in your own mind, you will be startled by the contrast between them—and especially by the contrast between the Chrysler "50" and all the others.

In point of size, seating room, beauty of design, beauty of finish and power, the Chrysler "50" stands out so unmistakably that you recognize the price at once as far and away the greatest offering ever made in four-cylinder cars.

It will continue to yield a sustained speed of 50 miles and more per hour, 5 to 25 miles in 8 seconds, and 25 miles to the gallon—for months and for years, as the result of Chrysler's plan of Quality Standardization.

At last it is possible for you to make a convincing and conclusive comparison of values—studying the comfort, appearance and performance factors of the Chrysler "50" in comparison with everything else offered—and satisfy yourself almost at a glance in which car you should invest your money. Examine and ride in the new Chrysler "50" and you will not consider any other car in its price class.

TODAY 12 Years Ago

From The Daily of
September 29, 1914.

Decatur Chapter No. 38 R. A. M., will meet tonight to confer the Mock Master degree upon Wilbur Green and C. H. Hitch.

Miss Sue Simpson and Miss Julia Walden will leave tomorrow for Birmingham.

Dr. J. W. Crow leaves this afternoon for New York where he will take a special course on the diseases of children.

Mrs. Otis P. McGlathery of Birmingham will be the guest this week of Mrs. Brentz Preuit.

Miss Rhea Lide left last night for Washington, D. C., to enter Bell Court Seminary.

The song of prosperity has its origin in the rhythm of the wheels of industry.

The progressive man is not necessarily the fellow who tells you how to erect a \$100,000 building on a capital of \$2,000.

Well, there's one thing about the Florida storm. The newspapers down there admitted it. California papers please copy.

Well, we'll all be happy when this evangelist story runs out. It is undoubtedly the poorest excuse for news that has reached news service wires in some months.

The fall of the year is the best time of year, even if you do begin thinking of income tax, county tax, city tax, automobile tax and other obnoxious subjects.

May the new officers of the city of Albany start immediately upon a successful road—and may they do something about Second Avenue, Echols Hill and taxi-cab stops at an early date.

The world series is placed at the right time of year for everybody but the manufacturers of straw hats. Why if the series came during the hay season there wouldn't be a whole straw hat left in the nation.

Another "missing link" has been found. Seems that professors might find something more advantageous for their employment in the present, than in digging skulls to determine if their grandfathers were apes.

Albany-Decatur will begin now to think about the lighting arrangement for the new highway bridge. That is something that is a practical advertisement, something that we could get along without, but something that will prove an asset to these cities.

Very little is ever said about the various lodges and organizations represented in the Twin Cities. The fact is that these organizations do a great deal of work in helping others which the public never hears of, private actions not known by the public and never forgotten by the unfortunate to whom this aid is extended. Our lodges and organizations may not always be in the fore of civic movements, but their quiet work in helping fellowmen is a distinct asset to these cities. The Daily appreciates the efforts of those responsible for such excellent thought and care of those about us who have not their portion of the world's goods.

This fall weather will serve as a good business stimulant, in fact merchants of these cities can hardly expect less than a record business for the succeeding months of October, November and December. We do not speak of the year 1927, let us bend our energies to rolling up totals for 1926 which make 1925 look like there was a distinct slump in the business world during that period. Naturally, we all know that such was not the case and that 1925 proved a very good year, therefore we should work doubly hard in making 1926 the banner year since the war period. The entire United States is enjoying a period of prosperity. Reports are defying Roger Babson, the business authority, when he states that he looks toward a depression in the next two to three years. The United States is prosperous and sees no reason for calling even a temporary halt. Make the Twin Cities the shopping center of the agricultural legions around us, let the people know that Twin City merchants have the best that there is offered in the fall markets.

The cotton market is at a low ebb but farmers continue to come into Albany-Decatur with their fleecy product, ginning and in a great majority of the cases, selling. They are not waiting for a rise in the market for they do not expect any rise in the market. It is the same story again, caught with too much production. However, there is a bright note seen in the agricultural scheme, though it is not at all bright for the farmers in the northwest. Corn prices are bound to rise with the killing weather which hit the northwest during the past week. Farmers in territory adjacent to Albany-Decatur have raised considerable corn and declare at this time that they have no market for the product. It is comforting to know that some other product is being raised along with cotton. So many times have our farmers been "stuck" with cotton that we come to look for the autumnal season with the same pessimism regarding the cotton market. May farm agents be fortunate and successful in teaching our people that there is strength and safety in numbers of farm products, only disaster in one crop.

THE MARCH OF EDUCATION IN SANITATION.

How many years ago did Alabama begin systematic training of minds to the point of sanitation and individual cleanliness and care of self? Where was Alabama ranking at that time? Alabama ranked very low in point of health, wealth, education and all other compilations of figures in which various government agencies entered. Today Alabama is ranking among the very leaders of the nation in health work, gratifying to those men and women who have devoted their lives to such work.

Professor Lile, Trinity, made a comparison recently which is interesting in this vein. Professor Lile declared that Alabama's strength lay in her educational and not her natural resources and after thinking the matter out with such line of thought it is easily concluded that the teacher was correct. He pointed out that while Massachusetts did not have the natural resource possessed by Alabama, yet Massachusetts had education for 250 years and that she bought a ton of Alabama's natural resource for \$100 and returned it later at a cost to Alabamians of \$1,000 a ton. That is the march of education.

Health growth is educational growth. You may count the steps in the progress of a state and soon you will discover that the natural resource, while one of the greatest advantages a state may have, is not the most valuable by any means. Alabama needs to pay more attention to her health, her education, than she needs pay to her wealth, the latter will come after the first two items have been realized.

THE HIGHWAY COMMISSION DOES ITS BEST. OUR TURN NOW.

A telegraphic message from Chairman John A. Rogers of the state highway commission is reproduced elsewhere in the Daily, you have probably already read the article and while you are astounded at the figure of the Morgan county appropriation you undoubtedly feel a sort of nausea at realizing that Morgan county is still afflicted sorely with Echols Hill and the connecting link of the Lawrence county road which does not connect.

Chairman Rogers states facts in his telegram, which was sent in response to a letter and telegram from the Daily, the first urging that action be taken on the pair of projects, the latter asking that the details of the commission's action might be given to the people the Daily serves. Yes, the Daily had hoped that some better action might be gained from the highway commission.

The projects now remain in this status: The state highway commission has done all it can for Morgan county, served faithfully, wrought well, but its fund is exhausted in this county, it can do no more. The commission has accomplished things in the county which no other commission has been able to do, it has brought about a general feeling of business confidence in Albany-Decatur among those who have pleaded for the building of a highway bridge here for years. It has, or rather is making, possible travel between these cities and Limestone county. Morgan county will soon be able to call upon Limestone county much in the same manner as people of Albany call upon people of Decatur. There is no objection on the part of Morgan county toward the state highway commission. The Daily takes occasion to thank Chairman Rogers and his board for faithfully serving the people of Morgan and Limestone county.

But now, what is there left to do? Chairman Rogers states that nothing can be done. Shall we sit here and watch trade from the west go the other way, shall we continue to hear protests from people traveling the road to and from on the southern highway, or shall we prepare now to take care of the business rightfully belonging to us?

People from Courtland have voiced their readiness to travel towards these cities, provided they are given something better than a cow-path to travel upon, people from the south and east will gladly come here if conditions are such that will make travel easier and faster for them.

The matter is at this point is before Albany-Decatur and Morgan county. We have learned at last that we can expect no aid from the outside, the burden of proof is upon us to show those people from Courtland and Lawrence county that we want their trade, that we are willing to go before our own road commission and ask for the repair of that road, that we are willing to aid the Lawrence county people in taking care of their two mile stretch of bad road. We can do this thing by presenting it to the road commission of this county in its proper light, that is the imperative need at the present time, not the future need.

The city of Albany has learned at last that the state highway commission simply cannot take over the Echols Hill section of the Bee Line highway. So long as Echols Hill is in the present condition, then just so long is the city of Albany going to be criticised in a poor light by people who travel that road, not only people in the immediate vicinity, but travelers from one end of this country to the other. If you doubt the truth of the statement then ask merchants, business people, individuals of your cities who have made trips to other states, ask them if they have heard the rough stretch of the Bee Line highway discussed.

The cart is no longer before the horse, we cannot sit back and expect miracles to come to pass, the bet is up to us, if we "check" we lose.

The time for action on the Echols Hill road and the Lawrence county link which does not link, is now. Let's get busy and do something for both these thoroughfares.

CIRCUMSTANTIAL EVIDENCE

THE MERE FACT THAT
YOU'RE FOUND IN A BED
OUGHT TO PROVE THAT
YOU'RE TOO SICKLY TO
BE ALLOWED TO LAND!

TODAY

(By ARTHUR BRISBANE)

(Continued from page one)

cuses Great Britain of killing Chinese, coldly wrecking Chinese ships and small boats drowning one hundred passengers.

What Britain does to China and the other way around is not our business.

Why must we interfere?

ADMIRAL Judge Wilbur E. Bryant, seventy-five years old, a just man. Obeying the law of Nebraska he sentenced criminals to jail on a bread and water diet and is called "inhuman."

He replies by sentencing himself to a bread and water diet.

Losing ten pounds in five days and telling the world: "If I can stand it at seventy-five years of age, bootleggers can stand it at thirty."

YOU respect a man who takes his own medicine. Braunschweig, great French physician and scientist, was called cruel because he practiced vivisection on animals.

To prove that a man might think and recognize his friends after his head had been cut off he separated the living head from the body of a dog, which turned its eyes to the right or left as the doctor whistled on the right or left side.

Having explained to his students that atmospheric pressure kept enough blood in the brain to allow for thought, the doctor, then past seventy, lectured on vital processes, involved in the knitting of bones. As a preliminary he broke one of his own fingers in a vise and lectured as he put on a splint, calmly commenting on his sensations.

ONE HUNDRED cancer specialists of this and European countries have boiled into one brief statement all that is known about cancer. This is said to be the most important statement on the subject ever made.

FIRST nobody knows what cancer is. Some think it comes from a germ, others from a growth caused by irritation of tissue. Nobody knows.

Most important of all, cancer is not contagious or infectious. You can not "catch it" from a cancer victim.

CANCER like drunkenness is not inherited. But you can inherit a tendency to cancer, and a tendency to alcoholism.

As regards cure, everything depends on early treatment. Of a hundred that die of cancer in accessible parts of the body which means practically all of

the body in these days, ninety could have been saved by early treatment.

The only treatment worth while depends upon surgery radium and X-rays. Medicine is worthless.

WAT price royalty?

The queen of Roumania is coming with her charming daughter, Princess Illena. The young lady, related to King George the recent German Kaiser, and the late Russian Czar, might consider marrying a young American able to finance a royal wife.

DORIS, young bachelor, King of Bulgaria, also plans to visit us. Some American father might get him his daughter and be royalty's father-in-law. Since Mrs. Leeds, widow of the Emperor King, married a Greek Prince, financed a Greek revolution and died just as she had finished spending her money, the ambitious eyes of Europe, turn this way. A comparatively small fortune, say half a million or a million income would do wonders in a Balkan Kingdom.

WHAT is it that frightens men, making them more and more timid as they climb higher in the world of success?

IT'S TOO COSTLY TO HAVE TOOTHACHE

This Ailment, So Commonly Due to the Neglect of Small Cavities, May Quickly Lower One's Economic Efficiency.

By ROYAL S. COPELAND, M. D.

United States Senator from New York.
Former Commissioner of Health, New York City.

TOOTHACHE is a real illness. You may have no temperature. You may be able to go about your affairs. But you can't be happy and you can't be efficient if you have an aching tooth. You feel sick; you look sick; you act sick. You are sick.

The proper treatment for toothache is not to have it.

This may sound foolish, but it isn't. You may not escape pneumonia or an automobile accident. Either one may be forced upon you. But you know how to escape the toothache. If you have it, it is because you chose to have it.

No matter how poor you are, you should not neglect your teeth. If you are poor you will be poorer when your teeth begin to ache. You won't be any good at your job and you will get "fired."

If you can't get the money any other way, stay away from the movies for a month and use your savings to pay a dentist. It won't cost much if you begin your visits to the dental office before big cavities have formed or the gums have become diseased.

If you are poor and live in a modern community, you can get free dental service through the schools or the Board of Health. Every progressive locality has dental clinics.

If you are not so poor, you have no excuse for avoiding the dentist. You can afford to go, and you owe it to yourself to attend to your teeth.

If you have early, regular and scientific dental care you won't have the toothache. One way or another you can get such care if you choose to do so. If you don't get it, it is because you deliberately neglected to find relief.

In short, then, if you have toothache it is because you chose to have it.

One of the common things a doctor hears is this: "What have I ever done to be sent such suffering?"

There is a story of a King frightened in a thunderstorm, who said to one that expressed surprise: "Of course, YOU are not frightened. You are not a King. Lightning would not strike you."

All American citizens are supposed to be King and many of them are frightened in the midst of their prosperity.

EIGHT out of ten Americans will ask you: "What do you think of business conditions? Does everything look all right for the next five or six months? They specify a number of months with an eye to business commitments.

WHAT is there to worry about in this country, if we mind our business and continue to work?

A part from the fact that the nation is absolutely unprepared for attack in war, there is nothing to worry us. And war for some years to come is not probable. Therefore amiable, optimistic amateurs in charge of the nation's defense are no great menace yet.

If there is anything a nation needs that we haven't got, what is it??

Men like gold. We have more than half of all there is in the world.

We have the greatest crops on

Best Marriage Market In England At Wallasey, 2,000 Surplus In Women

By H. K. REYNOLDS
International News Service Staff Correspondent

LONDON.—The city of Wallasey, Cheshire, with a population of 90,000, is acclaimed the best "marriage market" in England. Alderman J. W. Holdsworth of Wallasey has issued an appeal to the young men of Britain to come to Cheshire for their wives.

"We have," he declares, "two thousand surplus women under forty years of age. Young men should spend their holidays here, and find out what they are doing by staying away."

The Alderman's advertisement is a prominent part in all the feminist movements in Wallasey, and recently won a prize in a hat-trimming contest.

have subscribed to a fund to have his portrait painted in oils in recognition of his services.

"I am glad to think," Alderman Holdsworth said in an interview, "that I am something of a 'ladies' mayor.' It seems to be a case of mutual admiration. I dread to think of the possibilities if I did not happen to be safely married."

"Personally, I think that women are marvelous. It is said that women do all the talking, but I think the boot is on the other foot. The women of this town are workers. Only those who are jealous would deny their activities."

Alderman Holdsworth takes a prominent part in all the feminist movements in Wallasey, and recently won a prize in a hat-trimming contest.

John Sample was the guest of his father, Mr. R. H. Sample, Sunday.

The structure of a city is built on the backbone of its citizenship, boost your cities, they belong to you. You cannot say too much that is good, nor too little that is bad. Talk Albany-Decatur as the best, speak in no other terms.

ORDER OF PUBLICATION

Alice Davis vs. Riley Davis.
Circuit Court, Morgan County, Alabama, in Equity.

In this cause, it appears to the Register, from the affidavit of complainant, that the residence of defendant Riley Davis is unknown, after diligent effort to learn the same. It is therefore ordered by the Register that publication be made once a week for four consecutive weeks in the Albany-Decatur Daily, a newspaper published in Morgan county, requiring said defendant to plead, answer or demur to the bill of complaint in this cause by October 29, 1926, or in thirty days thereafter a decree pro confesso may be taken against him in said cause.

This September 29, 1926.
MARVIN WEST, Register.
Sep. 29-Oct. 6-13-20.

Banker's Money
Didn't Help Him

"Have you spent a fortune in doctoring. Twelve years ago I became afflicted with stomach trouble which steadily became worse. I frequently became prostrated with colic attacks and bloating. My doctors wanted to operate for gall stones. I wished to avoid an operation and on advice of a friend

tried MAYR'S with excellent results as since taking it about 2 years ago my trouble has entirely disappeared." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at all druggists.—adv.

Love Goes adventuring In—
PARADISE
COSMO HAMILTON
Author of SCANDAL & BLINDNESS OF VIRTUE
Published by arrangement with First National Pictures

Finally, with a curious laugh, he gave the letter to Chrissie. "I'd like you to open it, if you don't mind," he said, being superstitious. "Your voice will temper the wind to the shorn lamb."

"Anything you say," said Chrissie, "but—dunno—I wish you hadn't got it." All the same she went to the window for the last of the light. "It's written on Stirling Castle paper and dated '29 March, 1912'."

coconut trees in primeval simplicity and sunny peace. The opportunity to do so, however, never came, owing to the responsibilities of family life, but I maintained the ownership of the island and it is mine to-day. Through all these years it has been under the charge of a man named Quex, a trader, who lives in a place called Apia in the Pacific from whom I have heard from time to time. The deeds of this property, which is I have been given to understand, worthless though lovely, are not in the hands of my lawyers, as you will believe, knowing me, but are buried in a tin box on the island in a certain spot, for the reason that I did not desire to lay myself open to the incredulous laughter of my legal advisers for so fantastic a purchase, being Scotch. The enclosed chart, of which Quex knows nothing, indicates quite clearly the place where, in that brief ridiculous mood, I buried the box. If, when this letter and its enclosure are placed in your hands, you find yourself with sufficient money and courage and assiduity to set forth on a voyage of discovery, Paradise is yours and there you may establish yourself as the ruler of its ingenious natives, and in turning back the calendar to the Chieftain times to which, according to Uncle Alan, you so properly belong, live in comfort on its various fruits, levy taxes for your luxuries, and—raid the neighbouring islands when you feel the lust for blood. Believe me, Your unaffectionate and unwilling father, Stirling."

"Poor old Tony," said Chrissie. "That was a nice sort of father to have! Well, thank God for the disclaimer, the salary and tips."

But, bursting with excitement, Tony sprang to his feet, and cried out, went down on one knee and put his lips to her hand.

"Oh, no, Tony, don't be silly. It's impossible. It's a dream."

"Is it?" he said. "You watch me. That island's going to be ours. As King and Queen of Paradise, back we'll go to the good old days."

"Oh, Tony!" she said. "She would rather be queen of those rooms."

He caught her close and kissed her, laughing. "I'm damned if I know," he said.

PART III
PEACE

In all London there was not a happier or a gayer couple than Tony and his sunbeam. They found life a most delightful game and played it daily with all the gusto of recent converts. Hard work and long hours offered no annoyance to the most popular and the most consistently cheery chauffeur who had ever been in the service of the Metropole Hotel. Looking extremely smart in what he would just as soon have called a livery as a uniform, Tony regarded the job that he had held all through the summer as an excellent joke. Nothing except living had ever given him so much interest and amusement, and he revelled in being regarded by his customers as a romantic figure. He satisfied the playing side of his element, the time that he knew himself to be the King of Paradise; to bask in the limelight that it suited his employers to focus upon him as a peer's son and an ex-Winner Commander who was honestly knocking down to the Gilbertian situation that was the aftermath of war.

And nothing had ever provided him with an exquisite sense of surprise as the regular mahogany act of handing over to Chrissie the tips that had resulted from his winning smile. That he, who once had never conceived the possibility of making money in any other way than by gambling, was now earning regular wages by the sweat of his brow, was something that often seemed too fantastic to be true. The whole thing was, indeed, an excitement, and as such it appealed to all that part of him that had been explained so truly and so often by the biological Uncle.

Chrissie banked that money, not as Tony liked to think for the triumphant procession to the South Sea Islands, but against a rainy day. That practical little soul had served her apprenticeship in poverty. Hunger had been an intimate terms with her. At any time there might be a change in the office of the Metropole and another man's friend might Tony off the driver's seat. And as to Paradise, it was not only unattainable, but a waste of time to consider. An island, probably very hot, with biting insects, bad water, dust, with coloured people who deceived and made weird noises, without soap, shops and theatres, buses, hustle, the usual tangles that London gave. She would be able to stand it. Heavens, what a spot! Then, too, she refused to accept all that stuff about Tony. He was not a throwback. He was, as she had known from the instant that she had met him, a gentleman, born and belonging to his time.

She was, however, wrong—all wrong and wide of the mark. The truth was that the thoughts and dreams of this outwardly modern man were centred wholly on Paradise. The island called him over the incessant roar of traffic, the quiet hymn of the country to which he drove his fares, and the dramatic calm of the city during its hours of sleep. Its voice became insistent. It made him homesick. It said to him that there, among those naive people, he would find himself back in the age that was his; that there, in the ancient Stirlings whose blood was in him, he would come into his own, take his place as Chieftain, give his natives kindness, thrills and hero-worship, pomp, colour and patriotism, and make them pay.

An average family contains 5.1 persons and someone suggests that the .1 represents Dad.

Youth and love cannot be bought, yet some fool is forever attempting it.

"Just cutting up a bit," remarked George Washington, as his father spied him near the cherry tree.

Too many people think opportunity means a chance to get money without earning it.

Now comes a horrid man and says the reason women's minds are cleaner than men's is because they change them oftener.

Many a sixteen-year-old boy is sitting up later at night than he should be, trying to teach ma and pa the Charleston.

Some men miss success because when opportunity knocks at the door they think it's the wolf.

Among those enterprises which depend for success on implicit faith are love, democracy and hash.

Add Similes of 1926; as full of promise as a physical culture ad.

Men who don't pay as they go have a hard time coming back.

The farmer just won't wear an oat straw in his mouth and say "by heck" even to please the city cartoonists.

When Uncle William, who was a hard man of business, visited his nephew, Willie asked him for a dime to buy an orange from the man outside. "Give you a dime? Certainly not!" said the uncle. "You'll never make a business man. Run out and make faces at him and perhaps he'll throw one at you."

The phonograph record may scratch and squawk once in a while, but the owner cannot attribute the trouble to static.

He was the kind of a business man who'd steal your shirt and then have you arrested for indecent exposure.

"Have the Browns money enough to retire on?"
"No; just enough to be restless on."

As near-sighted chaperone with a squeak in her shoes is very popular at any dance.

A husband who can't cook these days is as much out of luck as a wife who can't make her own living.

A Scotchman once gave a waiter a tip, but the horse lost.

SALVAGE CONTINUES

Lieutenant Derris, of Battery V, fifth field artillery, Fort Bragg, and his entire battery of 85 men, have arrived in the Shoals district and will continue the salvage work at nitrate plant number two. No announcement yet has been made regarding sales of salvaged goods.

ALABAMA SPECIAL

A number of local football fans are planning to go to Nashville Saturday for the Vanderbilt-Alabama game and several expect to travel aboard the "Alabama Special" which will pass through here some time Friday night or early Saturday.

Bright Breezy Up-to-the-Minute

SPORTS

THE HERO OF ST. LOUIE

Crimson's Leave Capstone For Tussel With Commodores, Tide not Confident

UNIVERSITY, Ala., Sept. 29.—Alabama's Crimson squad of footballers leave the Capstone Thursday night for Nashville where Friday they will stage their final practice before their game Saturday against Coach Dan'l McGugin's Commodores of Vanderbilt. The game will mark one of the two teams' conference aspirations.

There's quite a bit of romance connected with this game at Nashville Saturday because of the fact that Wallace Wade, Tide mentor, served as McGugin's assistant for two years before assuming charge of the Crimson two years ago. Russ Cohen, Wade's good man Friday, was a teammate of Josh Cody, McGugin's right hand man, for three years under McGugin, Cohen captaining the last team the two played on.

It is the first meeting of Alabama and Vandy since 1921 when the Commodores walloped the Crimson by a 14-0 score. In all, six games have been played in past years and only once has the Crimson been returned victor.

Both teams emerged victor in their opening contests by large scores and, as a result, neither of the opposite scouting crews were able to glean much of the other team's real power. The Crimson mentors who saw Vandy play refrained from making any comment on the game while the Commodore mentors were almost as uncommunicative.

The Vandy bosses say, however, that Alabama is much farther advanced as a unit than Vandy is. If this is so, it may mean quite a lot to the Crimson's chance of winning. At the same time, many claim a break or two of the game will decide the fracas, but come what may, it will be one of the hardest battles fought this season.

It will be as hard a struggle as either team will face the remainder of the season.

Alabama will depend on the team that started against Millsaps last Saturday to get a verdict over Vanderbilt. Perhaps there will be one or two exceptions. It is pretty safe to believe that Captain Barnes, Caldwell and Brown will be three members of the backfield with the fourth to come from Johnson, Fossfeld, Reverra or Winslett. The ends will come from Reverra, Winslett, Pepper and Enis with the tackles slated to fall to Pickhard and Perry. Holmes will take care of center and Bowdoin and Hagler or Enis will probably get the guard

call.

Alabama's next four opponents were scouted Saturday by different mentors of the Alabama staff.

Wallace Wade and his first assistant, Russ Cohen, with Capt. Lovely Barnes saw the Commodores in action while Henry Crisp, other varsity coach, witnessed the Mississippi Aggies' defeat of Birmingham-Southern.

"Shorty" Propst and Johnny Mack Brown, freshman coaches, traveled to Atlanta and Sewanee, the former to see Georgia Tech lose to Oglethorpe and the latter to watch the Sewanee Tigers defeat Bryson.

These four teams viewed in action are the next four opponents of the Crimson Tide to be played in the order named.

World's Series To Get Early Start

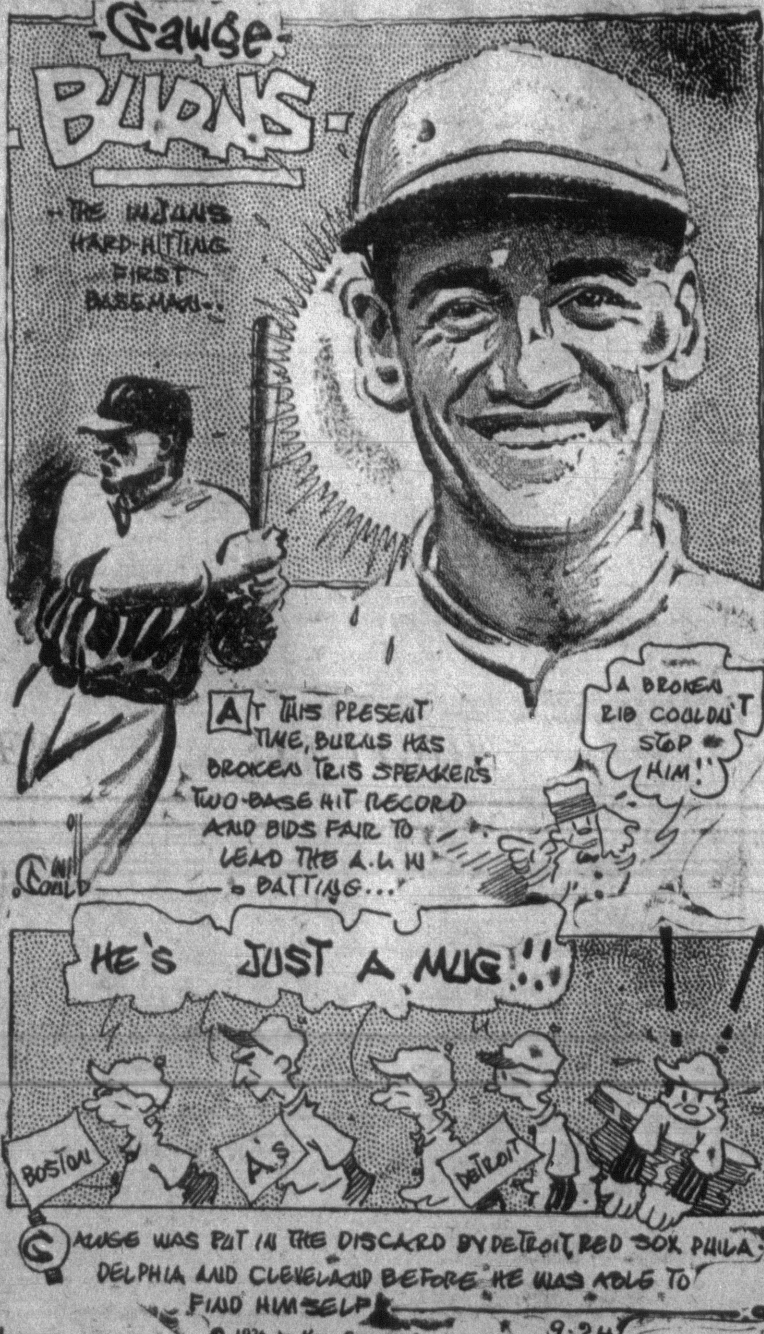

The world's series this year will get an early start. The first two games will be played in New York, beginning at 1:30 o'clock, or 12:30 o'clock here.

Subscribers to The Daily may look for the final scores in all editions of the Daily, unless games are exceptionally long.

Have you ordered your supply of billheads, statements, letterheads, envelopes? The first of the month is near, stock up now while the Daily can get the job to you on time.

All ruled forms are a specialty with The Daily job printing department. The Daily satisfies or it does not accept money for its work. Ask for The Daily representative to call.

BURNS 'EM UP

ALABAMA FORGETS MILLSAPS TURMOIL

Wallace Wade Puts Charges To Work For Commodore

UNIVERSITY, Ala., Sept. 27.—Victor by a 50-0 score in her opening game, the Crimson Tide of Alabama forgot about it here Monday afternoon as Wallace Wade started them off on the four days of practice here this week before their departure Thursday night to battle the Vanderbilt Commodores in Nashville. After Vandy comes Mississippi A. and M. and then Georgia Tech.

Alabama and Vanderbilt have met six times since they first began grid activities in 1903 and in only one of these contests have the Crimson and White warriors been returned victor. That was in 1920 when Alabama defeated the Commodores in Birmingham by a 14-7 score.

The battle Saturday will also be the first time that Dan'l McGugin will send his football team against the team of his former assistant, Wallace Wade. It will be a battle as both are anxious to see his protege returned victor. It also means the making or breaking of one team's championship aspirations, although it can mean the breaking of both teams' chances.

Coach McGugin and his assistant, Lew Hardage, were present at the Alabama-Millsaps game and took notes freely on Alabama.

They left before the game was over, but were followed just a few hours later by Coach Wallace Wade, Assistant Coach Russ Cohen and Captain "Lovely" Barnes, of the Alabama team, who will watch the actions of the Commodores Saturday in Nashville.

Albany and Decatur Battle For An Hour Correcting Faults In Machine

Albany and Decatur high schools battled an hour yesterday afternoon on the Decatur Hi grid in an effort to iron out a few machine kinks before both teams enter their first games of the season on next Friday afternoon. Decatur is meeting Coffee High at Florence and Albany chooses St. Bernard as an opener at Chalmers. Both teams will have their hands full, particularly as both will be on foreign turf.

Coaches Alford and Kirby watched their charges intently yesterday afternoon and no doubt have prepared their verbal ultimatum for this afternoon when the teams go through their drills. Weaknesses were numerous owing to numbers of new faces appearing below helmets.

Frankly, coaches of both institutions are worried over the failure of their charges to round into form any faster than they have. Both teams could hardly have picked more difficult opposition for an opening date and the local cohorts have but a few hours to prepare themselves to withstand the onslaught.

Advices from opposition camps indicate that they have been training longer than the local lads, but that fails to jostle the confidence of the homelings. Albany Hi is stronger in various departments this year, while Decatur is manifestly ahead of last year's game by a long margin. Kirby has had a ticklish problem, but seems to be getting along pretty well in his wrestle to bring about a new backfield combination. He has a pair of good tackles and a good center, Gene Morrow giving the Albany forward wall any amount of disaster yesterday afternoon.

Alford is apparently pretty well off in the backfield with the exception of his interference. He has multitudes of ball toters, but no outstanding favorite who can lay the opposition like a carpet after a dive at their knees. This afternoon's practice will probably bring about a great deal of tackling and blocking in the Albany camp as well as instructions from coaches on the offensive problems of the forward wall.

The Papenburg Brothers, Inc., seem to be going as well as they did last year, though Henry looks as if he has gained several notches in poundage. Herman Papenburg is losing no time in grabbing hostile ball toters who attempt to negotiate his flank. He fought hard yesterday afternoon and soon had the Decatur signal caller looking for other places to direct his force. With a few more weeks Sartor should prove an excellent running mate for Papenburg. Sartor is a new man and yet needs some training in his offensive work. He is big and rangy, though just a trifle slow, but should play his position in a manner which will bring glee to the heart of his coaches this year.

Coach Kirby will have his force going strong by Friday and they can be expected to put up a heavy fight against Coffee Hi. Albany High certainly will give a good account down at the lair of the Bernardines.

DALLAS STEERS IN LEAD AFTER A WIN

Belated Rallies Are Made By Clubs In Fifth Game

The Dallas Steers, champions of the Texas League, today are just another game closer to their championship aspirations as the result of an administered 4-3 defeat to the New Orleans Pels yesterday afternoon over in Dallas. Both clubs rallied late to take the verdict, after having been tied over seven innings of the torrid argument.

Moss, Scott and Martina failed to corral the Steers who battered the agate for 11 blows and four runs. The Pels were rifling Shuman and Riviere for seven hits and a trio of counters. It was the third win for the Steers, New Orleans having won two games and one having been tied.

Each team got their first run in the sixth, all hurlers traveling at a torrid pace until that point.

A matter of time

When you first met one of the people now your friends, he was only a face and a name. You saw him oftener, listened to him, learned what he was doing, what his friends thought of him . . . claimed him yourself as friend. It was only a matter of time.

It is only a matter of time before you will also claim as friend many a product which advertising is introducing to you. It may be a truer watch, a quieter door-closer, a longer wearing silk stocking, a better oil for your car. If you notice more in the advertisement than just appearance and name, you may want to be friends at once. You will learn what the product means to others and can helpfully mean to you. Advertisements tell you frankly all that makes a product friendly. Qualities, mannerisms—what the watch, door-closer, oil is in the habit of doing. Advertisements make you faith. Since you choose your friends often, why not keep your choice wise?

ADVERTISEMENTS GIVE YOU TRUSTWORTHY FRIENDS THAT MAY PROVE INDISPENSABLE TO YOU
